

1035-A0-315      **Annalisa Crannell\*** ([annalisa.crannell@fandm.edu](mailto:annalisa.crannell@fandm.edu)), Department of Mathematics, Box 3003, F&M, Lancaster, PA 17604. (*Speaking in favor of*) *Redundancy, Inefficiency, Extravagance, and Waste.*

We often seek advice on how to save time, how to balance teaching and research (and family and service), and how to convince our students to appreciate the discipline of mathematics. This presentation seeks to encourage us to find good ways to turn such advice on its head. This talk will be full of advice on how to *spend* time, how to add extraneous endeavors into our schedules, and how to follow our students and our colleagues into their numerous extra-mathematical pursuits. (Received September 01, 2007)
