

1035-K1-1992      **Queen W Harris\*** (qharris@gpc.edu), 2101 Womack Road, Dunwoody, GA 30338. *Statistics Projects*. Preliminary report.

### Statistics Projects

I have created statistics projects that help students actively learn what statistics is and how to use it. They conduct surveys, collect and analyze their data. Most importantly, they are able to make inferences using their data. In this workshop, we will simulate their projects. Bring your calculators. (Received September 21, 2007)
