Fred Worth* (worthf@hsu.edu), 329 N. 13th St., Arkadelphia, AR 71923. *Baseball and general education mathematics.*

I will soon be offering a general education mathematics course, similar to a typical liberal arts mathematics course, where all topics will be introduced through the filter of baseball. This talk will be a presentation of the basic topics and ideas of this course. (Received September 17, 2007)
