02141-0038. *Girls' Angle: A Math Club for Girls.*

In this presentation the motivation behind the creation of Girls' Angle and its educational philosophy will be explained along with its major goals. Actual case studies at Girls' Angle where we were able to help a member improve at mathematics using techniques that would likely be difficult to implement at most schools will be detailed. We will also explain how you can be involved to help us fulfill our mission. (Received September 16, 2011)
