1106-47-1396   **Michael Y Sun*** (`sunm@uni-muenster.de`). *Existence of the Matui-Sato tracial Rokhlin property.*

We construct examples of group actions on C*-algebras with the so called tracial Rokhlin property and examine their crossed product C*-algebras from the point of view of the classification program for C*-algebras. (Received September 12, 2014)
